

Today's New Life Insurance

Life Insurance is more than just a death benefit

Important Update!

Life insurance is an amazing asset to own, it can provide the much needed financial resources in the event of an early passing. The money from life insurance can keep the bills paid, take care of your spouse and protect your entire family financially if a premature death occurs.

But what if you could use your life insurance while you are alive if you become Terminally, Critically or Chronically ill?

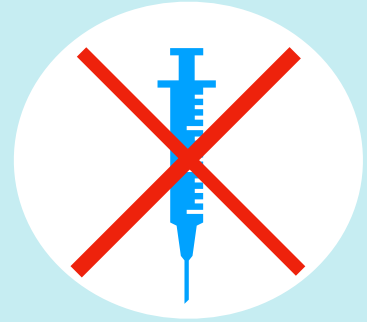

Well now you can! In the past life insurance was only a death benefit, but Today's Life Insurance can provide Living Benefits. Many policies today will pay a portion of the death benefit in the event of a heart attack, stroke, cancer and other types of Critical or Terminal illness. Life Insurance can even provide Chronic Illness and Long Term Care protection.

You can also turn your Term Life Insurance into Guaranteed for life coverage without a medical exam.

At Lezam Insurance we are able to work with the top life insurance companies that provide the most competitive living benefits and death benefits.

Our Financial Services Division representative, Roy Snarr holds the prestigious LACP certification: *Life Insurance and Annuity Certified Professional*. For over a decade, Roy has helped thousands of people across the county with Life Insurance.

Life insurance approval, premiums, living benefits, medical exam qualifications and overall qualifications are subject to underwriting and company approval.
